

PSD2 - Opportunities beyond compliance

The revised payment service directive (PSD2) offers an excellent opportunity for banks to step up digitalization efforts and modernize their IT infrastructure. Banks seizing this opportunity can create a strategic business advantages and differentiate themselves in the market.

Fiorano PSD2 Accelerator - Realize Transparency and Seamless Compliance

Fiorano PSD2, an end-to-end PSD2 solution built on the industry's leading banking Integration and API Management infrastructure, provides a comprehensive compliance solution for banks. Fiorano PSD2 masks complex technical details to provide a seamless solution that integrates with all leading core-banking platforms and can be implemented in weeks. Fiorano's mature integration technology with API, Consent & Identity Management simplifies compliance challenges supporting any PSD2 initiative while offering the scalability and resilience of the cloud. It also provides out-of-the-box support for key PSD2 requirements like per-transaction exchange-rates, fees, time-to-completion estimates, transfer-completion alerts and more.

Fiorano PSD2 Key features

ESB

- Seamless integration with all core-banking systems, Reducing time-to-implementation
- Predefined, customizable flows for typical payment scenarios: bank to beneficiary, consumer to merchant, etc.

Identity Management

- Identify, authenticate and authorize information access by Connecting user rights with pre-defined identities
- Extend access to information systems across a variety of on-premises applications, mobile apps, and SaaS tools without compromising security

API Management

- Secure APIs to expose critical account information; same APIs across all Banks for easier third-party integration

B2B

- Detailed Transaction History for all consumer account activity; find details on any transaction from any bank-account to any beneficiary within seconds

Consent Management

- Configure requirements for customer consent collection
- Expand to different channels to collect customer consent
- Configure access control for consent validation
