Performance under the contract will continue subject to dispute resolution under the provisions of FAR 52.233-1. [https://www.acquisition.gov/far/html/52_233_240.html]. Notwithstanding the above, breaches of Fiorano's intellectual property by Customer or its contractors, agents or representatives shall, if not cured within 30 days of such notice by Fiorano, entitle Fiorano to terminate the agreement with immediate effect.

(d) Effect of Termination. Fiorano shall have no liability for any third party claims of infringement based upon (i) use of a version of a Product other than the most current version made available to the Customer, (ii) the use, operation or combination of any Product with programs, data, equipment or documentation if such infringement would have been avoided but for such use, operation or combination; or (iii) any third party software, except as the same may be integrated, incorporated or bundled by Fiorano, or its third party licensors, in the Product licensed to Customer hereunder.

If any Product is held or claimed to infringe, Fiorano shall have the option, at its expense, to (i) modify the Product to be non-infringing or (ii) obtain for Customer a license to continue using the Software. If it is not commercially reasonable to perform either of the above options, then Fiorano may terminate the license for the infringing Product and refund the pro rated amount of license fees paid for the applicable Product using a twelve (12) month straight-line amortization schedule starting on the Commencement Date. The parties understand that the modules of the Software are licensed as noted in this section. The term “Target System” means any computer system containing one or more Processors based upon any architecture, running any operating system, excluding computers running IBM MV-S, OS/390 and related “mainframe” operating systems. The Term “Processor” means a computation hardware unit such as a Microprocessor that serves as the main arithmetic and logic unit of a computer. - (a) If the Software is Fiorano ESB Enterprise Server, FioranoMQ Peer, Fiorano Middleware Platform SOA server or FioranoMQ JMS Server, then the Software is licensed on a per Processor basis on a single Target System, where the total number of Processors on the Target System may not exceed the total number of Processors licensed, with the additional restriction that only a single instance of the Fiorano ESB Enterprise Server may run on a single Target System and that a separate license must be purchased for each instance of the Fiorano ESB Enterprise Server, Fiorano ESB Peer Server or FioranoMQ Server (JMS) Server for each Processor;
- (b) If the Software is Fiorano SOA Tools or Fiorano Mapper Tool or any Fiorano Test and/or Development license, then the Software is licensed on a per-named-user basis, where the total number of named users may not exceed the total number of named users licensed;
- (c) If the Software is a Fiorano Business Component of any kind (including but not limited to Fiorano HTTP, SMTP, File, Database, and other Business Components, etc.), then the Software is licensed on the basis of the number of CPUs of the Target System on which the FioranoMQ Peer (to which the Business Component connects runs). A separate license needs to be purchased for each CPU of each Target System of each FioranoMQ Peer instance to which any Business Component connects.

Evaluations: Licenses used for evaluation cannot be used for any purposes other than an evaluation of the product. Existing customers must purchase new licenses to use additional copies of any Product and may not use evaluation keys in any form. All evaluation keys are restricted to 45-days and extensions need to be applied for explicitly. Any misuse of evaluation keys shall be subject to a charge of 125% (one hundred and twenty-five percent) of the license fee plus 20% support.

Non-Production Environments: For all non-production environments referenced on the Order Form (including all HA (high-availability), QA, Staging and Development environments), the following is understood: each non-production environment is an exact replica of the Production Environment from the standpoint of the number of copies of the Fiorano ESB Enterprise Server, FioranoMQ Peer, Fiorano SOA server and/or FioranoMQ Server (JMS) licensed. Each non-production environment is licensed on the exact same number and configuration of CPUs and/or Cores as the corresponding Production Environment.

Run-Time Libraries: The Fiorano ESB Enterprise Server, FioranoMQ Peer, Fiorano SOA server and FioranoMQ Server (JMS) products are “server” products, each of which has a runtime library associated with it. The runtime library may be freely bundled with and/or used for internal development purposes by all Users who have licensed at least one production copy of the corresponding Server Software.
